East Stroudsburg Homebuyers Can Refinance At Historically Low Mortgage Rates Today!

The spread of coronavirus caused financial market volatility, with the 10-Year Treasury Notes reaching all-time record lows. Mortgage rates tend to follow 10-Year Treasury movements. Savvy homeowners across the country are taking advantage of this opportunity to refinance their homes at today's attractive rates.

INTRO DEFINE MORE

The above tool estimates monthly mortgage payments with taxes, insurance, PMI, HOA fees & more.

Click on the "define" & "more" tabs for a description of each input & how they are used in calculations.

Set an input to zero to remove it from the calculation.

If property tax is 20 or below the calculator treats it as an annual assessment percentage based on the home's price. If property tax is set above 20 the calculator presumes the amount entered is the annual assessment amount.
